Common Player Complaints

Many players have expressed concerns, including:

"A couple of times I wasn't awarded what I was supposed to be. I've lost a lot of points. There were times I hit the carrots, and they didn't show up in my account. The last time, I had three at a time and still wasn't rewarded."

If you've experienced similar issues, try the following:

- **Restart the app**
- **Contact Coin Master support** through the app
- **Document the issue** with screenshots when possible

Despite glitches, the game remains enjoyable—**just be vocal and report issues** when they arise.

Use Your Pet's Boosts Wisely

Pets like **Foxy** and **Tiger** can significantly enhance your gameplay. But remember:

Pet boosts only last four hours after activation.

So only activate a pet when:

- You're able to play consistently for 3–4 hours
- You're about to join a raid-heavy event or complete village upgrades

Foxy, for example, gives you **an extra shovel during raids**, making her ideal for **big raids** where millions of coins are on the line.
